1 Gestiune centralizată

2 Virtualizare

Advice #1

Less is more.

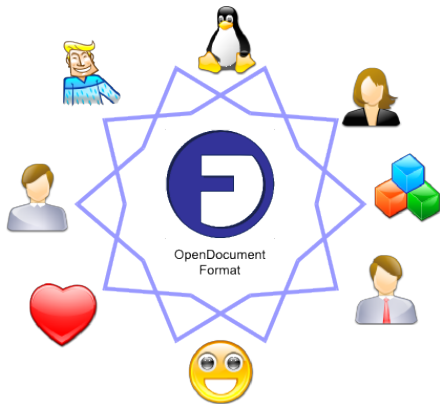

Advice #3

Centralize, backup and secure.

Advice #4

Allow interconnection and interoperability.

Advice #5

Use versioning.

Advice #6

Allow access from anywhere on any device.

1 Gestiune centralizată

2 Virtualizare

Advice #1

Hardware is cheap. Consolidation is king.

Advice #2

Choose what suits you best.

Advice #3

I/O is (almost) always the issue.

Advice #4

Bare-metal virtualization for servers. Host-based virtualization for desktop.

Advice #5

See no difference.
